Registration blank

All those attending the Conference should have an ID to be allowed to the event.

**Conference objectives**
- to promote effective strategies and innovation-based programs in medical education;
- to review global experience in improving the quality of medical education and identify its main pathways;
- to promote the export of Russian medical education;
- to propose measures aimed at improving the competitive capacity of Russian medical education;
- to develop ways for effective cooperation of medical and educational organizations at the national and international levels.

**Organizers**
Ministry of Health of the Russian Federation, Association of the Rectors Council of Medical and Pharmaceutical Universities of Russia, European Association for Medical Education, Stavropol State Medical University, NORTH-CAUCASUS Research & Training Medical Cluster

**Topics for discussion**
- Major practice-oriented trends in global medical education.
- Russia’s place in the global educational market.
- New technologies and innovation-based processes in medical education.
- Quality assurance system in medical education.
- Education in medical educational institutions focused on employers’ needs.
- Russian educational services exports – growth challenges and opportunities.
- Effective cooperation of medical schools with partners in science, education and other fields.
- Electronic educational environment.
- New approaches to the primary accreditation of specialists.
Invited speakers
1. Ministry of Health of Russian Federation
2. Ministry of Education and Science
3. The Association for Medical Education in Europe

We are happy to invite to join us heads and teaching staff of educational and research medical and pharmaceutical institutions, employers and medical NGOs.

The speeches delivered at the conference shall be published in a special.
The participants coming from other areas shall enjoy support getting hotel reservations.

The Conference shall include two sections

- Development trends in International medical education
  (The Inclined Assembly Hall)
- Contemporary aspects of training medical staff in Russia
  (Major Assembly Hall)
